Work Experience

UI/UX Designer | RowthTech (Nov 2025 – Present)

- **Swoot – Padel Sports Booking & Gaming Platform:** Designed a sports-tech platform for Padel players that enables court booking, online player matchmaking, and real-life gameplay coordination, while working on key features such as match scheduling, leaderboards, player rankings, and game statistics dashboards, with a strong focus on intuitive user flows, performance-driven UI, and enhanced competitive engagement.
- **Verdant Equanim – Online Survey & Analytics Platform:** Designed an online survey platform with end-to-end flows for survey creation, user participation, and completion tracking, improved dashboard usability for analytics, insights visualization, and response management, and ensured a clean UI with clear data presentation and a smooth, consistent user experience across the product.

UI/UX Designer | WTechy (Aug 2025 – Oct 2025)

- Designed user interfaces for multiple website projects, ensuring an optimal balance between aesthetics and usability.
- Conducted user research and competitive analysis to identify user needs, behaviors, and pain points.
- Translated research insights into user flows, wireframes, and prototypes that improved navigation and overall user experience.
- Collaborated with cross-functional teams including developers, product managers, and stakeholders to align design solutions with business objectives.
- Contributed to a live project from concept to deployment, enhancing accessibility, responsiveness, and design consistency across platforms.

UI/UX Designer | Global Root Technologies (Nov 2024 – Aug 2025)

- Contributed to multiple live international projects by designing user interfaces for websites and web applications, ensuring visually appealing, responsive, and user-centric designs that aligned with client requirements and brand identity.
- Worked on international projects including:
 - Canam Distributors Inc (Canada) – created modern, product-focused layouts for better navigation and brand presentation.
 - Royal Canadian Car Rentals (Canada) – designed an intuitive booking interface with improved information hierarchy and accessibility.
 - Punia Homes (Australia) – developed a clean, responsive real estate website emphasizing visual clarity and mobile usability.
 - Home Vita (Australia) – crafted user-friendly UI components to showcase home improvement products effectively.
 - Metal Roofing Australia Pvt. Ltd (Sydney, Australia) – designed a professional corporate website highlighting services and portfolio.
 - Color Vibes (New Zealand) – built a vibrant, modern design system reflecting the brand’s artistic and energetic tone.
