Collaboration & Execution: Cross-functional Collaboration, Stakeholder Communication, Design Handoff

PROFESSIONAL EXPERIENCE

Rowthtech — Full Time

UI/UX Designer | Nov 2025 – Present

- Designed end-to-end user experiences for web and mobile applications, improving usability and user engagement.
- Created wireframes, prototypes, and high-fidelity UI designs aligned with business goals and user needs.
- Conducted user research and usability testing to identify pain points and optimize user flows.
- Improved navigation, interaction design, and accessibility across multiple digital products.
- Collaborated with product managers and developers to ensure seamless implementation of design solutions.

WTechy — Part Time

UI/UX Designer | Aug 2025 – Oct 2025

- Designed user-centric interfaces for web applications, balancing usability, accessibility, and visual design.
- Conducted user research, competitor analysis, and usability evaluations to inform design decisions.
- Produced wireframes, prototypes, and interaction designs to improve navigation and overall user experience.
- Contributed to product lifecycle from ideation to deployment in collaboration with developers and stakeholders.

Global Root Technologies — Full Time

UI/UX Designer | Nov 2024 – Aug 2025

- Designed user-friendly interfaces for web applications focusing on usability and clarity.
- Created wireframes and prototypes to communicate design concepts effectively.
- Improved user experience by optimizing navigation and interaction flows.
- Collaborated with cross-functional teams to deliver consistent and scalable design solutions.

PROJECTS

Swoot App — Sports Booking & Tournament Streaming Platform

- Created user-centric UI/UX for a sports booking and tournament streaming platform to enhance usability.
- Designed user flows for court booking, tournament participation, and live match viewing.
- Improved onboarding and navigation to enhance usability and reduce user friction.
- Conducted usability testing and delivered responsive, user-centric design solutions.
- Integrated features like player matchmaking, leaderboard rankings, XP-based performance system, and manual scorecard functionality.

Sarthi AI — Voice-Based Conversational Platform

- Designed UI/UX and logo for an AI voice chat application based on mythological knowledge (Gita & Mahabharata).
- Built conversational user flows for voice input and AI-driven responses.
- Created a clean, minimal interface to improve readability and engagement.
- Ensured consistent branding, visual design, and seamless user experience.
